A View From the Summit...

Happy Valentine's Day!

Only the U.S., Canada, Mexico, France, Australia and the U.K. celebrate Valentine's Day.

- In the Middle Ages, young men and women drew names from a bowl to see who their valentines would be. They would wear these names on their sleeves for one week. To wear your heart on your sleeve now means that it is easy for other people to know how you are feeling.
- In the United States, 64 percent of men do not make plans in advance for a romantic Valentine's Day with their sweethearts.
- Hallmark has over 1330 different cards specifically for Valentine's Day.
- California produces 60 percent of American roses, but the vast number sold on Valentine's Day in the United States are imported, mostly from South America. Approximately 110 million roses, the majority red, will be sold and delivered within a three-day time period.
- Cupid, another symbol of Valentines Day, became associated with it because he was the son of Venus, the Roman god of love and beauty. Cupid often appears on Valentine cards holding a bow and arrows because he is believed to use magical arrows to inspire feel-

"Happy Valentine's Day!" (continued...)

ings of love.

- During the late 1800s, postage rates around the world dropped, and the obscene St. Valentine's Day card became popular, despite the Victorian era being otherwise very prudish. As the numbers of racy valentines grew, several countries banned the practice of exchanging Valentine's Days cards. During this period, Chicago's post office rejected more than 25,000 cards on the grounds that they were so indecent, they were not fit to be carried through the U.S. mail.
- During the Middle Ages, the belief that birds chose their mates on St. Valentine's Day led to the idea that boys and girls would do the same. Up through the early 1900s, the Ozark hill people in the eastern United States thought that birds and rabbits started mating on February 14, a day for them which was not only Valentine's Day but Groundhog Day as well.
- 15% of U.S. women send themselves flowers on Valentine's Day.
- 73% of people who buy flowers for Valentine's Day are men, while only 27 percent are women.
- About 1 billion Valentine's Day cards are exchanged each year. That's the largest seasonal card-sending occasion of the year, next to Christmas.
- About 3% of pet owners will give Valentine's Day gifts to their pets.

Fullers ESB

First brewed in 1971, ESB is unrivalled in terms of its flavour and balance. A powerful 5.5% a.b.v. in cask (5.9% a.b.v. in bottles and kegs), it is brewed from Pale Ale and Crystal malts, and from Target, Challenger, Northdown and Goldings hops. But don't ask us for the actual recipe - that's a closely guarded secret.

Andrew Jefford, the respected UK drinks critic, sums up ESB's flavour thus: "an ample, grainy-nutty aroma and a broad, authoritative flavour, with lashings of dry marmalade-like bitters", whilst 'Beer Supremo' Roger Protz describes "an enormous attack of rich malt, tangy fruit and spicy hops in the mouth, with a profound Goldings peppery note in the long finish and hints of orange, lemon and gooseberry fruit".
