A View from the Summit

Catracho Land

This spring is the first time I am going back home in eight years. I cannot wait to see my old family and friends.

Honduras is a land of natural beauty and extraordinary archaeological treasures. It is home to friendly people who descend from eight different ethnic groups.

Located in the heart of Central America, Honduras consists of exceptional geography, unique history, and pleasant climate making a prime location for tourism.

Its North coast offers Caribbean coastlines covered with lush tropical vegetation, white sandy beaches and warm turquoise waters.

The coastline of the Pacific located in southern Honduras explodes in vivid shades of red as the sunsets behind silhouetted volcanic islands in the Gulf de Fonseca.

The country's vast national park system including protected areas consists of national parks and monuments, wild life refuges, and biological reserves. Two of these areas have such worldwide importance that UNESCO has named them World Heritage sites. Two such sites include the Rio Platano Biosphere (Plantain River) in the East and the Mayan Ruins of Copan in the West.

The Honduran Bay Islands lie 50 Kilometers off the North coast on one of the largest coral reefs in the world. Truly an island paradise. This Island is a very popular destination for divers from all over the world.

My home town...

Life in the country's oldest cities still reflects a rich colonial history. The old urban centers adorned with cobble stone streets and historic buildings are reminiscent of a time that produced the country's more important national heroes.

Tucked among the mountains of central Honduras lies the city where I was born, Tegucigalpa, the nations capital and largest city. The area's moderate climate and charming mountain villages make it a popular place for foreign nationals who live in Honduras.

The city was founded in 1587 and became one of the most important mining centers in Central America during the colonial period. In 1880, it became the capital of Honduras.

Today, the city's original colonial architecture contrasts with the rapid urban expansion of recent years. Nevertheless, the glory of its rich past can be found in its historical buildings, churches, and monuments.

I'll take many pictures to share in the gorgeous atmosphere. I'll see you all soon!!!! (

Eduardo

Beer Spotlight

Savannah Ghost Ale

An English Blonde with only the best British malts and hops. The late addition of whole leaf East Kent Goldings adds a classic and traditional smooth hop aroma. During fermentation our special strain of yeast from Northeast England contributes light fruity esters. A great British session beer!

Did You Know?

Researchers have determined that 1 acre of potatoes can yield 1,200 gallons of ethyl alcohol in a year.

Recent reports suggest that almost 50% of all British teenagers know how to buy alcohol that has been smuggled into the country.

In olden times, saloons offered free lunches, most of which were overly salted, forcing the thirsty diner to buy an alcoholic drink. Many bars now offer peanuts and salty snacks for the same reason.
