There is a \$2.00 registration fee, but 100% of that is donated to Habitat for Humanity. Isn't that reason enough to join? The Passport Club works like this:

1. Tell your server you'd like to join the Passport Club.
2. Your server will bring you a form to fill out and your own personal beer list. The beer list stays at Summits for your convenience.
3. Fork over the two bucks and order a draft.

That's it! Your server will provide your own draft menu on which we'll keep a record of your beer journey. Each time you stop in, just ask for your passport list.

Already got your mug? Try for Passport Club Tier II! This time you get to tour our bottled beers.

Cooking With Beer!

Here are basic rules-of-thumb when first cooking with beer:

- Beer is by nature bitter. It comes from the hops. Malt adds a sweet flavor that counteracts and harmonizes with the bitterness. Likewise, sweet foods profit from the marriage with the hops' bitter taste. Use sugary vegetables like onions, carrots, corn, etc., and even add some honey, molasses or sugar itself. Caramelized onions are a classic example of a sweet vegetable ideal with beer.
- The bitter hop flavor also helps counteract the richness of creamy, oil-based or cheese dishes, but flavor-wise, use it as sparingly as you would a squeeze of lime or touch of vinegar.
- Acidic foods like tomatoes, citrus fruits, vinegar and mustard can compliment the sweet flavors, adding balance and depth to the dish.

Beer Geek

Berliner-style Weisse

The Berliner wheat beers are the most refreshing of all wheats. They have modest alcohol content, light body and an acidic-clean character. It is often described as champagne like. Berliner Weisse is matured for 2 months to 5 years which develops its delicate fruity complexity. It is made with relatively low wheat content and no perceptible hop bitterness. Special lactic cultures are added with the top fermenting yeast. This technique softens the acidic tones. These beers are often served with syrups such as raspberry or woodruff. These syrups are deemed necessary to moderate the intense acidity. These are the lightest of all German-style wheat beers. The unique combination of a yeast and lactic acid bacteria fermentation yields a beer that is acidic, highly attenuated and very light bodied. The carbonation of a Berliner Weisse is high, and hop rates are very low. Fruity esters will be evident. No diacetyl should be perceived.
