What's New at the Summit?

Dogfish Head Brewery is Creator of Randall

Randall is the creation of Dogfish Head brewery in Delaware. A "Randall" is a cylindrical device that functions as a sort of filter. It is filled with fresh, whole leaf hops and the hops. Once the cylinder is filled a hose connects the Randall to a beer tap line. When the tap is opened the Randall fills with beer and is "filtered" through the cylinder... and, of course, the hops. The hops steep into the beer inside the cylinder much like you would envision a tea bag steeping in cup of hot water. When the "Randallized" beer is served it has essentially gone through a "dry hopping" process where extra hop bitterness and flavor were added after the fact!

We carefully select the beer each week and the hops to go along with it. The end result really is a unique drinking experience! A super charged hopped brew! This is one for beer geeks!

We will "Randallize" a different beer with a different type of hops every Monday at ALL THREE of our stores!

We're excited to announce this week that our Woodstock store now has its own Randall! The Randall will be filled and poured at opening each Monday! So, plan to visit at lunch, dinner, or sometime in between to try a great brew each week! The beer tastings begin at 7:00 pm and include

Condors: perfect for last minute gifts!

All You Can Eat....

Viewer Discretion Advised!
What you are about to see may frighten you!

These two guys really ate 15 plates between the two of them at the all-you-can-eat crawfish boil on Saturday! They said, "When it says all-you-can-eat, we take that as a challenge."

We're glad to see that the crawfish boil was a great time!

Don't Miss Summits University!

The beer tastings begin at 7 pm on the second Monday, Tuesday, and Thursday of the month. They include dinner, samples of the featured beers and tasting notes! Sign up today! only \$12.99 per person. Check for dates!

Beer Geek

Studies have shown that moderate consumption of beer can:

Lower rates of heart disease.

Consuming alcohol in moderation (defined by the U.S. government as no more than two drinks per day for men or one drink per day for women) may lower coronary heart disease risk for some people by 30 to 60 percent, even those at high risk because of diabetes, hypertension or a previous heart attack

Aid in bone formation.

Beer contains silicon, a mineral that helps build bone mass. Dietary silicon has been shown in one study to improve bone density in the hips of men and premenopausal women.

Beer Spotlight

Kona Fire Rock Pale Ale

(Honolulu, HI)

Crisp & Refreshing! Fire Rock Pale Ale is a crisp, refreshing "Hawaiian-style" pale ale. Its signature copper color results from the unique blend of specialty roasted malts. The pronounced citrus-floral hop aroma comes from the liberal amounts of Galena, Cascade & Mt. Hood hops added to each brew.

Cooking With Beer!

Looking for a good book about cooking with beer?

Cooking with Beer

by Lucy Saunders

A favorite of the beer cookbooks for newbies, this tome is down to earth, very readable and gives the proper amount of information without being overwhelming. Direct and concise, this book covers all the basics, using common-sense and thankfully avoiding too many do's and don'ts. Saunders' recipes are right on target as well. She avoids overtaxing the palate, keeping flavors and ingredients manageable yet creatively refreshing. The right book to have when you want to go into the kitchen and just whip something up. A valuable cook's resource

Wed. AYCE Crab Trivia!

Come from 4 - 10 pm and get your fill of fresh snow crab legs, drawn butter, jalapeno cole slaw, homemade corn bread, french fries and our homemade shrimp corn chowder for \$19.99.

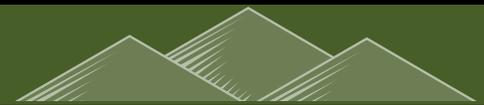

Team Trivia offers the chance to win up to \$50.00 in house cash! Play time begins at 8 pm!

Sat.: Rack of Ribs Plate

Don't miss Summits' newest dinner - the Rack of Ribs Plate! This fabulous dinner includes French fries and homemade jalapeno cole slaw and a great rack!

Available Saturday nights only from 5:00 - 10:00 pm.

Did You Know?

Before the year 1000, the word "she" did not exist in the English language. The singular female reference was the word "heo", which also was the plural of all genders. The word "she" appeared only in the 12th century, about 400 years after English began to take form. "She" probably derived from the Old English feminine "seo", the Viking word for feminine reference.

Quote of the Week

"Sir, if you were my husband, I would poison your drink."

-Lady Astor to Winston Churchill

"Madam, if you were my wife, I would drink it." -His reply
